

# easy to use high-performance pipettor

# apricot PP5

**Apricot PP5 +Walkaway** combines the functionality of several pipettors into a single work cell resource. Complete multi-step assays of non-similar tip formatting with a single click. The PP5 +Walkaway is a continuous automated work cell with an intuitive operator interface and automated tip changes to help you get the best results - accurate, reliable, and repeatable. The PP5 +Walkaway minimizes repetitive tasks, like serial dilutions, eliminates manual pipetting errors, and delivers results in a small footprint that maximizes bench space.

## applications

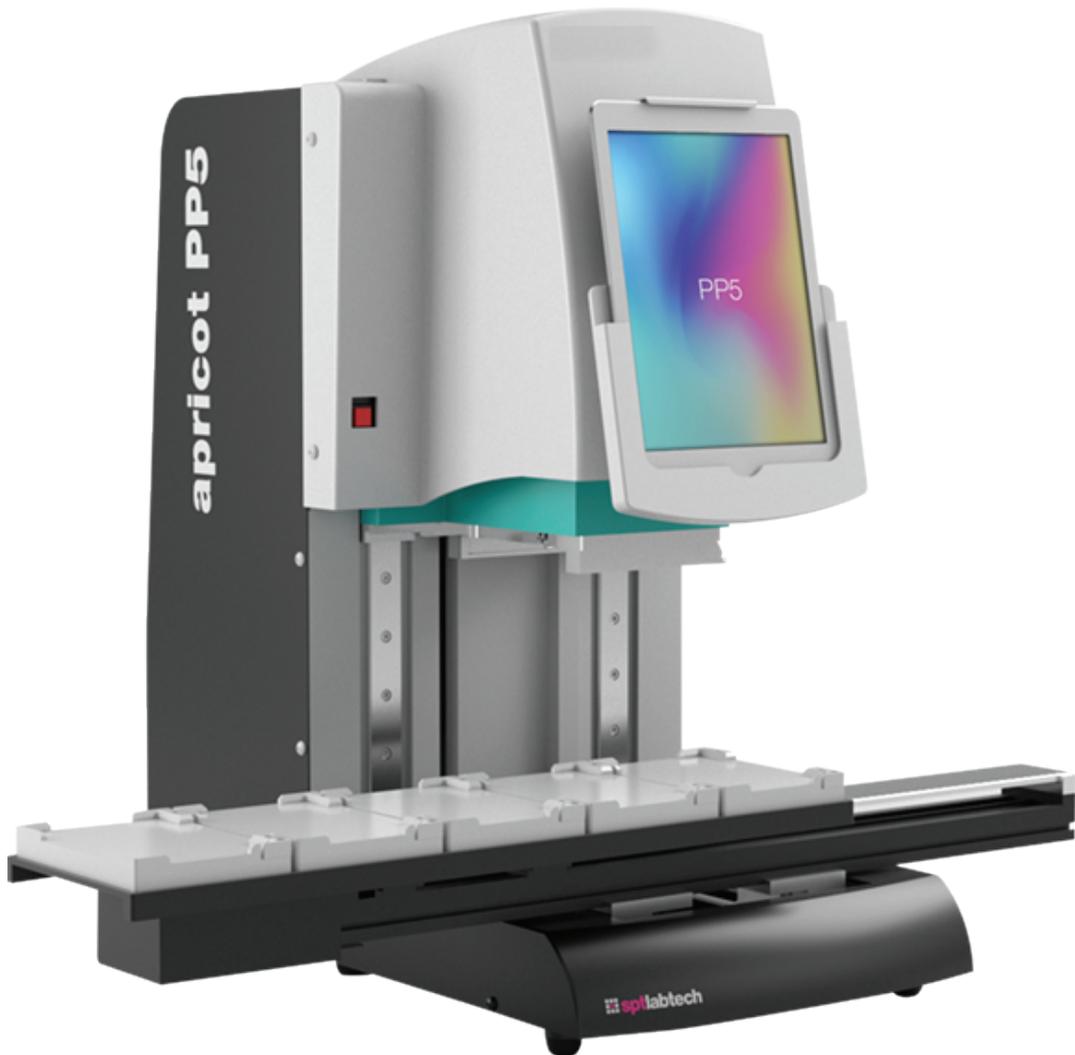

- Plate replication
- Plate reformatting
- Reagent addition
- Compound addition
- Serial dilution by row or column
- Purification
- PCR Prep
- ELISA•NGS library preparation
- Cell-based assay
- + Much more! ...

## features

- 5 linear stations, plus 1 tip wash/reservoir station
- 1, 8, 12, 16, 24, 96,384 channel pipetting
- Multiple pipetting heads of various formats on deck
- High-precision pipetting heads are independent of pipetting mechanism
- On the fly tip changes with EZ-Load tip technology
- Intuitive iPad® controller is easy to use
- Also, available with PC software controller
- Microplate stacker and robotics readyreadily integrates into an automation work cellIntegrated tip washing system
- Small footprint maximizes bench space and fits in most standard hoods

# apricot PP5

## pipetting just got better

specifications	• Dimensions:	711mm x 483mm x 607mm ( 28"W x 19"D x 24"H )
	• Weight:	45 kg ( 98 lbs. )
	• Power:	100-240 VAC 50/60Hz
	• Operating Temp:	10-37° C ( 50-100° F )
